"Dinner at Eight"

"There ought to be a law about
fishing parties," said Alan N. Long-
staff, press representative of the
Canadian National Railways, in
addressing the Kiwanis Club at Mon-
real recently. A law requiring every
Canadian to spend at least two weeks
each year in the outdoors would in-
crease Canadians' knowledge of Can-
ada, improve the national health and
enhance the national wealth, said the
speaker. Existing laws concerning
fish and game laws, who have al-
ready taken their toll of fish and
game resources, should be given
sharper teeth.

DEATH OF MRS. MILLER

Mrs. Miller, beloved wife of Mr. Cliff Miller, formerly of Bellevue, passed away at her home here this morning, following a long illness.

Mrs. Miller is survived by her husband and two children.

Funeral will take place on Saturday morning from the Crows' Nest Undertaking Parlor. Service at St. Anne's Catholic church at 10 a.m.

Friends may view the remains at the Undertaking Parlor at any time Friday afternoon or evening.

JEFFREY HUNTER DIED IN CALGARY

The community of Pincher Creek will grieve to learn of the passing of George Jeffrey Hunter, only son of Mr. and Mrs. G. J. Hunter, of Red Deer and formerly of Pincher Creek, whose death occurred in Calgary on the afternoon of Tuesday, July 24th, following several months of illness.

The deceased was twenty-one years of age and until he contracted the illness to which he succumbed, he had been the picture of health and through his boyhood had been held as an example of physical development. After completing his schooling, he had entered the Royal Bank of Canada and when taken ill was stationed at Three Hills, Alberta.

Mrs. Hunter, Jeffrey's mother, was formerly Miss Edith Herron, youngest daughter of Mr. John and the late Mrs. Herron, the latter of whom passed away on June 13th of this year. Mr. Herron, who since the death of Mrs. Herron has been with the Hunter family in Red Deer or with Mrs. Jamieson in Calgary, has returned to Red Deer.

Besides his parents, Jeffrey leaves to mourn two sisters, Miss Marjorie and Miss Catherine, to whom with their sorrowing relatives the deepest of sympathy is extended.—Pincher Creek Echo.

At the conclusion of the Elks' grand lodge sessions at Jasper last week, Dr. W. E. Spankie, of Calgary, was re-elected grand exalted ruler.

POST OFFICE TO MOVE TO NEW QUARTERS

An important real estate deal was consummated a few days ago, whereby provision has been made for removing the post office from the present cramped quarters in the F. M. Thompson building to new and more spacious premises in the Faso building, next door east, formerly occupied by Scott's Grocery and more recently by Krivsky's meat market.

The new place is being re-arranged and renovated, and will likely be ready for occupancy by the 15th of this month.

Want of space for the F. M. Thompson Co's expanding business made removal of the post office necessary. The new location will be larger and brighter, affording greater convenience and accommodation for the handling of mails and a much larger waiting room. The new quarters will be heated from the Thompson building heating system.

NORTHERN POST BOYS VISIT CIVILIZATION

Clinging tenaciously to their brand new suitcases, two wide-eyed youngsters from Coppermine, on the rim of the Arctic circle, stepped off a Canadian National railway train at Winnipeg recently to face the mad hustle of a holiday crowd bound for the beaches. What an introduction to civilization!

The two boys, Arthur Wallington Watson, 7, and Gordon Field Watson, 5, sons of Arthur Watson, a fur trader, were born in the Arctic and they were "out" for the first time. They will attend St. John's College at Winnipeg in the fall.

The noisy confusion of the station rotunda presented an alarming spectacle to the two youngsters not used to the peculiar behavior of the civilized world. There was no doubt, however, that they were impressed by their first sight of "the big city."

By far the most awe-inspiring, so far as five-year-old Gordon Watson was concerned, was a taxi-driver soliciting fares outside the station exit. "Taxi, mister? Taxi, mister?" shrielled the taxi-driver, and Gordon watched open-mouthed. When he saw the taxi-driver snatching at the suitcases of outgoing travellers, Gordon clutched his own more firmly and backed away.

Getting into their taxi, they refused to surrender their suitcases to the taxi-driver, but clung to them as tenaciously as ever. When last seen, each had his head out a window of the taxi, "rubber-necking" at the sights of the big city.

Lightweight boxers looking for a real scrap will be accommodated by Gus Volney, the Drumheller lightweight, who has issued a challenge to any lightweight boxer in Western Canada. Volney, who has made a good showing in amateur ranks, has turned professional and is confident that he can put up a winning battle with any boy of his weight in these parts. Volney can be reached at his post office address, Newcastle, Alberta.

Mr. and Mrs. Charles Scammell, Quincy, Mass., and Mr. and Mrs. James Marshall, of Mount William, were visiting friends in town Saturday evening. Mr. and Mrs. Scammell were accompanied from the States by Mrs. Wm. Sutherland and daughter Kathryn, North Attleboro; Mrs. Allan Hamilton, Drumheller, Alberta, and Miss Josephine McHardy, R.N., Quincy, Mass., formerly of McLellan's Mountain. Mrs. Scammell, Mrs. Sutherland and Mrs. Hamilton are daughters of Mr. and Mrs. Dan Cameron, of Pictou, who will shortly celebrate their fiftieth wedding anniversary. Many friends around these parts are pleased to welcome these people back home again.—Westville Note in New Glasgow Free Lance.

MRS. R. UPTON TO OPEN MUSIC STUDIOS

Mrs. Upton, wife of Rev. Richard Upton, of Bellevue, will open studios in Bellevue, Blairmore and Coleman about September the 1st, and will teach the following subjects: piano-forte, voice, pipe-organ and choral work.

For the past fifteen years, Mrs. Upton has been a prominent figure in musical circles in northern and central Alberta, where she has taught music and directed choirs with marked ability. Her choirs and pupils have been frequent competitors in the Alberta musical festivals and, within recent years her choirs, both adults' and children's, have carried off first honors.

A few weeks ago, Mrs. Upton returned from the city of New York, where for the past year she has been studying music at Union Seminary, under a faculty of the leading musicians of that city, directed by Dr. Clarence Dickinson, one of the greatest living American musicians and composers.

For some years Mrs. Upton has been an active leader of church music in the province, directing choirs in the city of Edmonton and several towns.

The course in sacred music as Union Seminary is specially designed to provide leadership for church directors of music. Mrs. Upton is among the first in Western Canada to take this training, and should bring to the church life in The Pass a new impetus in the beautifying of church music.

Mrs. Upton possesses an attractive singing voice herself, and during her stay in New York held a salaried position with the Brick Presbyterian Church, First Avenue. She has excellent references from Dr. Dickinson, Dr. A. S. Tuttle, principal St. Stephen's College, Edmonton; C. J. Elliott, clerk of Norwood United Church Sessions; Mr. H. G. Thunell, mayor of Viking, and others.

THE GOLDEN CHAIR

Notwithstanding the fact that H. B. Bennett—and he ought to know—made public assertion that there was not a banker in Canada with the technical qualifications for the job of governor of the new Bank of Canada, there comes a well-founded rumor from St. James Street in Montreal that this cushy seat will be filled by a Canadian after all. You know that the Holt gang have something to say about things financial in Canada, and they do not take kindly to the idea of a "Bally Bleeding Englishman" from Threadneedle Street coming over here to take charge of our house of gold. Oh, no! The banking ring of Canada must have something in that seat who understands their language.—Stavely Advertiser.

H. N. Galer, retiring assistant general manager of the Granby company, in the Boundary, is leaving for Coleman, Alberta, to become vice-president and general manager of the International Coal & Coke Company, which is installing an extensive plant, the mines having an output of 250 tons a day.—Cranbrook Herald, 30 years ago.

Colin G. Groff says in the Red Deer Advocate's jubilee number: A retrospect of fifty years' growth in Alberta is an inspiring thing even in these days of complex economic problems. The wildest dreams of the pioneers could not have measured the actual development which has taken place, and the resident of half a century ago, who still is privileged to be alive, must find consolation in looking back on what has been done, with thought that if the development of the next fifty years is in proportion, this will indeed be a great province.

BELLEVUE HAPPENINGS

The Bellevue Girl Guides, under the leadership of Capt. Emmerson, returned from a two weeks' camp at Lee Lake. The girls report having had a wonderful time.

Mrs. Joe Christie was admitted to the local hospital on Tuesday, where she underwent an operation on tonsils. She is doing nicely.

Mrs. Penman, accompanied by Misses Grace and Isa, are spending a vacation at Waterton Lakes.

Mr. and Mrs. C. Wolfney and family have returned from a two weeks' holiday spent at Spokane and Seattle. Miss Joan Hampson, who underwent an operation for tonsils the early part of the week, is progressing favorably.

Mr. and Mrs. Breckenridge returned to Claresholm on Monday.

Mr. and Mrs. Cranstoun, Juanita and Albert Christie returned Sunday from a holiday spent in Northern Alberta.

Miss Annie Matkin left by bus to spend two weeks vacation at Waterton Lakes.

Mr. and Mrs. J. J. McIntyre have returned from Spokane, where Mr. McIntyre was called on business.

Mr. and Mrs. W. Prescott and Miss Mae Dudley have returned from their vacation, spent at Spokane.

Mr. and Mrs. J. L. Cousins left Sunday on a two weeks' vacation.

George and Albert Green returned Sunday from a week spent at Waterton Lakes.

Mr. J. Beal and son Bobby, accompanied by Mr. and Mrs. S. McDonald, of California, are visiting here, guests of Mr. and Mrs. W. Newton, senior.

Mr. and Mrs. H. Harrison and daughter Yvonne, who have been vacationing in Los Angeles, returned over the week end, having had an enjoyable trip.

Mr. and Mrs. C. Woodward are rejoicing over the advent of a new daughter.

In a very interesting study made of the tourist traffic by the Dominion government, some very vital and interesting information was brought to light. It was found that on an average fifty to sixty thousand persons cross the international boundary between Canada and the United States each day of the year, which is a greater number than crosses any other international boundary.

BLAIRMORE UNITED CHURCH
Rev. Albert E. Larke, Minister

"Serve the Church that the Church May Serve You."

Sunday next, August 5th:
10 a.m.—JUNIOR SCHOOL.
11 a.m.—PUBLIC WORSHIP, Rev. A. E. Larke will conduct the service.
Rev. Larke, the minister, returned from his holidays this week and will take charge of this Sunday morning service. He will preach on the subject: "Jesus, the Pioneer of Life." During August, service will be at 11 o'clock a.m.

Miss Jean Galbraith, of Lethbridge, who is to lead a vacation school from August 6th to 17th in Blairmore, will be at the service and will speak briefly on the work of the Vacation School. All boys and girls between the ages of 4 to 14 years are invited to attend this school, where they will enjoy doing the things planned for them. Please note the hour of worship at 11 a.m.

ST. LUKE'S CHURCH NOTES

Rev. A. S. Partington, B.A., Rector

There will not be any services during the month of August.

KISSES THUMB FOR BIBLE LODGED IN JAIL OVERNIGHT

Chief of Police Dodge Reynolds lodged a local witness in jail Monday night when the chief detected the witness kissing his thumb instead of the bible provided for that purpose. The chief's action has brought forth a cry of criticism from the public who are of the opinion that if the bible in question was as dirty and germ-laden as the average book with which courts rooms are equipped, nobody will be disposed to blame this witness very much.—Stavely Advertiser.

An exchange remarks: If the Doukhobors are to be disenfranchised for not wearing clothes, it is only fair that a lot of young ladies on the beaches should be permitted to vote only once every four elections.

The Leader for Over Forty Years

"SHILSH" TEA

"Fresh from the Gardens"

Conscience And The "Talkies"

Hollywood and the motion picture industry have been occupying even more than their accustomed share of the newspaper spotlight during recent months—and to some effect. There are indications the results of inquiry and publicity will have a salutary (if not salutary) influence upon the product distributed for the entertainment and edification of the theatre-going public.

The tremendous potency of the "Talkies" as agents for popular uplift, perhaps transcending that of the pulp or the press, has found all too belated recognition in official quarters. Steps should have been taken, years ago, to ensure the influence exerted should be for good, for the elevation, not the debasement, of public taste. Institution of a more direct and rigid censorship at the source of supply now, appears very much like closing the stable door after the horse has been stolen. Much harm has been done already.

Death of Dillinger, who had the unenviable notoriety of being classed as "U.S. Public Enemy No. 1," just as he left a Chicago theatre where a "crime" picture had been shown, came as a somewhat lurid commentary upon the feature of the business which had been engaging public attention. There had been a surfeit of "crime" films—pictures which, despite the anodyne of a little sickly sentiment, had tended to metamorphose the "public enemy" into the "public hero," to throw a romantic glamor around the gangster and his "moll," to sugarcoat the sordid and the sinister. The morbid and degrading curiosity of the mob which battled for sanguinary souvenirs of the dead Dillinger (the blood-stained garments and the spattered paving stones) can be construed only as a species of hero-worship—a hero worship gone hay-wire, become depraved and distorted.

The "crime" picture had been accompanied by an apparently endless string of "sex" films. It was only right, therefore, and to be expected, that the Dillinger climax to the first should be paralleled by an equally sensational climax in the case of the second. The "sex" series ended in a notorious "morals scandal" trial which occupied the attention of a Hollywood court for the first time police were ending the hectic career of the gangster.

There is no gainsaying that presentation of crime and sex in the average film has been anything but a healthy influence; nor can it be gainsaid that the sole criterion of motion picture production in the past has been box-office receipts. Such a criterion inevitably led to over-emphasis of sensationalism, the featuring of the thrill; and the anodyne of a little moral sentiment has never been applied in sufficient dosage to neutralize the possible evil effects upon impressionable minds of scenes and sounds of doubtful moral quality.

Action finally has been taken to impose a new and stricter censorship upon the film industry, which proposes to expurgate the more harmful features of Hollywood box-office attractions placed in circulation. The censorship will apply not only to the pictures themselves, but also to the stories procured for film purposes.

Concerning the average story submitted and accepted, there apparently is a reason why they should be trite and commonplace both in theme and presentation. Apparently, there is a premium upon the banal. James R. Crogon, noted playwright and actor, has been giving some rather cynical advice upon "How To Write A Talkie" to readers of the Leeds (Eng.) Mercury. He advises aspiring scenario-writers never to try for style, and never to write like a Galsworthy, a Hardy or a Madox Ford; bare-bones and nothing more is wanted. He concludes in this vein:

"Never mind feeling ashamed of the story—send it off at once before your conscience gets going. And as soon as you've sent it off, start on another—or the same one made slightly different. When your first story comes back from the first film company, send them the second and send the first to another firm. When you have about a dozen stories, keep them circulating. Don't hesitate about sending the same people a story which they have once rejected. They have probably changed their reader in the meantime."

Apparently the motto for those who seek this way to wealth is: "Abandon conscience those who wish success."

Receive Big Salaries

Motion Picture Stars Receive More Pay Than U.S. President

The United States motion picture industry, even while suffering a loss of \$19,589,393 last year, was shown to have given 110 people higher salaries in 1933 than that received by President Roosevelt.

Three others equaled Mr. Roosevelt in the salary he would have received without his government pay cut—\$75,000.

The peak yearly pay cheque for the industry, \$315,000, was paid to an unnamed actor. The second highest, a salary of \$296,250, went to an "artist" who received \$10,000 a week when he or she was working.

These figures were contained in a report of N.R.A.'s six months' study of the producing, distributing and exhibiting branches of the film industry.

In his youth, George Washington made a trip to Barbados in the West Indies.

Some animals of the same species have more ribs than others.

University Gets Radium

Was Most Valued Possession Of Late Madame Curie

The late Mme. Marie Curie's most valued possession, a gram of radium raised by her in 1921 with funds raised by a committee of American women, has been passed on to the University of Paris with the stipulation that her daughter, Irene Curie be permitted to use it at will.

Mrs. William Brown Meloney, chairman of the Marie Curie radium fund, said she received word to this effect.

Mme. Curie's daughter is herself a distinguished physicist, having virtually grown up in her mother's laboratory and serving as her principal assistant for years prior to Mme. Curie's death on July 4.

Mrs. Meloney expressed a belief that the radium constituted the only property of value left by Mme. Curie, with the exception of a meagre bank account, a plot of land in a Paris suburb and personal effects.

Hunting coyotes with aeroplanes has become a popular sport in Montana.

INFORMAL PICTURES OF DUKE AND DUCHESS OF MARLBOROUGH

With the recent passing of the Duke of Marlborough at the age of 62, the Marquis of Blandford (left) becomes the tenth Duke. At the right is the new Duchess of Marlborough, photographed at one of the recent important race meets which she attended with the Duke.

Giant Mersey Tunnel

Huge Engineering Feat Is Formally Opened By The King

The world's longest underwater roadway, the giant new Mersey tunnel between Liverpool and Birkenhead, was recently formally opened by the king.

His Majesty pressed a golden switch which rolled back huge green and gold curtains, and formally declared open what has been called the greatest engineering feat of modern times. The tunnel has four lanes for vehicles and broad sidewalks for pedestrians.

"Who can reflect without awe on that will and power of man which in our times has created the noble bridges of the Thames, the Forth and the Sydney harbor, and has driven also tunnels such as this in which many streams of wheeled traffic may run in light and safety below the depth and turbulence of tidal waters bearing the ships of the world."

The tunnel is named the Queensway in honor of the queen.

It was conservatively estimated that more than a million persons were present.

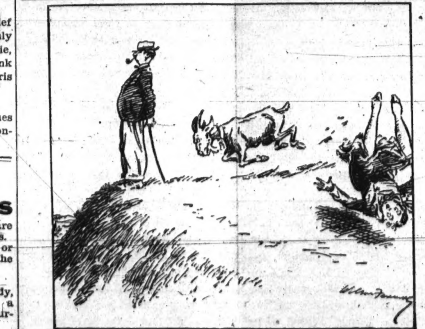

The tunnel has been under construction for nine years. Outside of the actual boring the chief difficulty encountered was that of ventilation. The total cost is estimated at \$35,000,000. The tunnel contains a three-mile roadway of special cast-iron sections.

Building Activity At Coast

Considerable Construction Work Going On In British Columbia

Considerable activity is noted just now in British Columbia construction circles. Road-surfacing, theatre building and home-building are noted in contracts recently signed, while the actual boring the chief difficulty encountered was that of ventilation. The total cost is estimated at \$35,000,000. The tunnel contains a three-mile roadway of special cast-iron sections.

With the exception of buckwheat, the grains ground in Canada during May, 1934, were lower than in May last year. The amounts in bushels, with the comparative figures for May last year in brackets, were, wheat, 5,258,707 (5,859,063); oats, 578,309 (621,591); corn, 144,344 (194,404); barley, 47,978 (49,211); buckwheat, 3,808 (2,744), and mixed grain, 726,298 (1,021,874).

HUSBAND: "Those people who are too lazy to climb up here don't know what they've missed!"

Chance For Canadian Girls

Australian Lace-maker Hopes Someone Will Copy His Designs

"For the instruction of Canadian girls" an Australian lace-maker, William Blacker of Home Creek, Queensland, has sent to Canada a specimen of lace and two handwoven scarves. They are in the hands of Col. Wilfrid Bovey, president of the Canadian handicrafts guild, at McGill University.

In the letter which accompanied the specimens, Mr. Blacker explained he learned to knit and to make fishing nets during a long illness in his boyhood, and later used this experience to make lace after an idea of his own. The inspiration for his work came, he said, was gained through watching Australian aborigines at their work.

Mr. Blacker complained that very few of the girls with whom he has come in contact in Australia have the necessary proficiency in knitting and net making, and they have not the time to learn; so he fears that his skill in lace making will be lost. Thinking that, because "of the long, cold winters" in Canada, the girls here may be more ready to stay home and knit, he sent samples of his craft and expressed the hope that some Canadian girls "who take an interest in artistic matters may enjoy trying to produce something that will be a novelty."

Scientists Are Puzzled

Striped Tree In California Is Producing Pink Lemons

Pink lemons are being grown in California. They are growing on one tree in a grove which has become a Mecca of astounded scientists who gaze at this phenomenon with awe and periodically and gravely pinch themselves. The skin and fruit of the lemons are a vivid pink, but this is not the only strange feature about the tree. The trunk and branches are striped, while some of the branches are white and other green. The white boughs are quite barren.

Canada is specifically mentioned in an order issued by the German government respecting the importation of fruit into Germany. All imports from the Dominion must be shipped direct to specified ports and be subject on arrival to inspection for San Jose scale and railroad worms.

The shortest route from New York to China is over the North Pole.

Corporal Stallworthy Recommended To Shackleton As Weather Expert

When Edward Shackleton, leader of the Oxford University exploration expedition into the Canadian Arctic this summer, asked the Canadian government for an experienced expert on conditions in the frozen wastes of the far north, Corporal F. H. Stallworthy of the R.C.M.P., formerly a constable in Alberta and now at Ottawa, was immediately named. Famed for his exploits in the lonely Ellesmere Island district, Corp. Stallworthy will accompany the expedition to that territory where it is panned Shackleton will establish the base.

Five years in various parts of the Arctic and his splendid work on the Bache peninsula where, at one time he was marooned for a whole year, have fitted Corp. Stallworthy for this new post he will fill.

Last November, Miss Hilda Austin, daughter of the rector of St. Catherine's church, Edson, married Mr. Stallworthy and during his absence in the north she will remain in England with her husband's parents. The expedition planned the journey into the north from the European side and while in Ellesmere land will make an attempt at reaching the north pole.

Huge Producer Of Gold

Expect Soviet Output Will Be Second Largest In World

Soviet Russia—now ranks as the second largest producer of gold in the world as the result of spectacular output gains in the past two years, the most recent estimates, official and otherwise, indicate.

The 4,000,000 fine ounces of gold which the Soviet Union is expected to produce this year would outstrip both Canada and the United States, long rivals for the position of runner-up to South Africa. Russian output in 1933 is officially placed at 2,489,000 fine ounces by the government, a gain over 1932 of 142 per cent as the result of more than twice the annual average of Czarist days.

The Soviet government claims to have spent more than 500,000,000 rubles in the last four years on the gold mining industry. Its foreign orders for gold mining machinery have grown visibly. Officials of the Bolshevik regime assert that Russia's gold deposits are well-nigh inexhaustible and that the U.S.S.R. some day will exceed even the Transvaal, richest gold source ever found.

Tree Planting Plan

Shelter Belt 100 Miles Wide From Canada To Texas To Be Planted

United States Secretary of Agriculture Henry Wallace announced that work would begin immediately on a \$75,000,000 project to plant a forest shelter belt 100 miles wide extending from the Canadian border to Texas.

President Roosevelt in an executive order signed July 11, allocated \$15,000,000 of emergency funds to begin work.

An Appropriate Text

Before beginning his sermon one Sunday evening a certain minister said that he was sorry to have to complain about the congregational offertories, but he felt bound to make a protest against an appeal. "In last Sunday's collection," he said, "there were no fewer than six buttons. I hope such a thing will not occur again."

Then turning to the Bible, he announced the text: "Render your hearts and not your garments!"

Soviets Find Salt Mountain

Described as "an immense dome of salt," a mountain has been discovered by Soviet prospectors in South Tadzhikistan, near the Afghan border. It is named Hodzha, is 24,000 feet high, and believed to contain about 30 milliard tons of pure white salt. Mining will be started at once.

To Save Sugar Crop

Fires Brought From Brazil To British Guiana By Air Mail

Three men nearly lost their lives on a journey of 1,500 miles to bring some flies from the interior of Brazil to Georgetown, British Guiana. The flies, it is hoped, will save the chief product of this British colony—the sugar crop. In six special packages the flies have travelled 500 miles down the River Amazon to Para by fast motor launch, and then 1,000 miles by air mail. They have been brought to fight the moth borer, a pest which at present destroys about 20 per cent of the sugar crop by burrowing through the sweet cane. They are "Amazon flies" and their existence—and partiality for moth borers—was discovered after two years of research by Dr. J. G. Myers, of the Imperial Institute of Entomology. Dr. Myers set out to bring a "force" of these flies and a number of assistants, and has had an adventurous journey. The launch in which he brought the flies down the Amazon was to be carried on a bullock wagon over twenty miles of mountainous country. Once the boat was swamped in rapids, and Dr. Myers and his two chief assistants had a narrow escape from drowning. All the scientific instruments for the expedition were lost. But the flies were saved and, if conditions suit them, they should obliterate the moth borer.

Puzzle Has Been Solved

Japan Bought Scrap Iron For Manufactures At Home

Several months ago the American Jingo press reported that Japanese merchants were buying scrap iron in this country and elsewhere, giving detailed information as to ports of loading and shipping lines. It was conjectured that Japan was using this method to procure cheap iron and steel supplies for the manufacture of war material, and sentimental tears were shed over the fate of good ocean liners like the Baltic and the Megantic, which were reported to have been bought and dismantled for this ignoble purpose.

Since then American agents in Japan have made the amazing discovery that the Nipponese authorities were selling this iron at cost-price to manufacturers at home. The secret is out. Tokyo has purchased three-quarters of a million tons of scrap shipping abroad for \$5,000,000 f.o.b. It will not be long before the old ships return to the American market as \$125 bicycles, \$175 automobiles, \$450 radios, etc.—New York Post.

Cancer Diagnosis

A new side in the diagnosis of cancer was claimed in Russia by Professor Tatlovitch in the form of chlorine injections in the blood. Tatlovitch reported that by this method he was able not only to diagnose the disease but also to discover persons predisposed to cancer.

Flour production in Canada for the month of May this year amounted to 1,175,433 barrels, exceeding the amount for the previous month but lower than that for May last year when 1,334,101 barrels were produced.

"Many a young woman," says Dorothy Dix, "has helped her husband to the top of the ladder." Sure, and then decided to hang the picture elsewhere.

Looseness Of the Bowels During the Summer Months

It is seldom, during the summer, that most people are not troubled with some form of looseness of the bowels. Generally it develops into Diarrhoea, Dysentery or Summer Complaint, and has a tendency to weaken the system.

Do not check the discharges too suddenly. Do not experiment with a new and untried remedy, but take Dr. Fowler's Extract of Wild Strawberry, a remedy that has been used by thousands of families during the past 88 years.

Do not accept a substitute. Be sure and get "Dr. Fowler's" when you ask for it.

Put up only by The T. Millburn Co., Ltd., Toronto, Ont.

THREE POWERS REFRAIN FROM TAKING ACTION

London.—Great Britain, France and Italy were represented in authoritative British quarters as satisfied with the elevation of Prince Ernst was Stabschef to the head of the Austrian government in place of slain Chancellor Engelbert Dollfus.

The three powers, which have undertaken to guarantee the integrity of Austria, it was stated, will abandon any thought of joint action into the Austro-German situation on the grounds the Nazis have done themselves more damage than could possibly be inflicted from any other quarter.

"It is agreed that it is the wisest policy now to let the Nazis stew in their own juice," said one source close to the British government. "They harmed themselves immeasurably by showing how weak they really are—much weaker than were the Socialists whom Dollfus smashed last February, and by forcing an estrangement between Germany and Italy which may be expected to gradually widen in the future."

Munich, Germany.—No authentic explanation of the reported mobilization of between 20,000 and 50,000 fugitive Austrian Nazi storm troops, which have been reported training here under German leaders, was available.

While Premier Benito Mussolini mobilized 48,000 troops on the south side of the Tyrol, at points not more than 50 to 75 miles away, "to be ready to move in against Austria's independence," the rumor that Chancellor Adolf Hitler came here to prevent a march into Austria gained credence.

Berlin.—Franz von Papen, the German vice-chancellor, will be sent as a special envoy to Vienna, it was indicated in an officially published message from Chancellor Hitler to Von Papen, now in Switzerland.

Von Papen's appointment in the terms of Hitler's letter was taken to mean that he is leaving the German cabinet and accepting the post of ambassador to Austria, at least temporarily.

Made Clean Sweep

Stock From Prince Of Wales Farm Takes Honors At Saskatoon Fair Saskatoon.—Stock from H.R.H. Prince of Wales farm at High River, made a clean sweep of the herd classes of Shorthorn cattle at the Saskatoon exhibition. In the individual classes, however, F.H. Deacon, Unionville, Ontario, secured premier honors, taking the grand championships, male and female, with his senior champions. The E.P. ranch excelled in the younger animals, having the reserve grand in the junior champion male and female and heading the female two-year-olds. Duncan Campbell Farms, Moffatt, Ontario, took reserve female and T.A. Russell, Downsview, Ontario, the senior reserve male.

Britain's Farm Policy

Boosting Domestic Production Raising A Serious Question Oxford, Eng.—The agricultural policy of Britain, one of boosting domestic production, is raising very serious questions for the overseas empire, declared Stanley Bruce, Australian high commissioner.

He told the Royal Empire Society's summer school here he agreed it was essential that "in these islands you have healthy agriculture, and I assure you you will have the complete co-operation of the Dominions."

He pictured Britain as the centre of a great group of agricultural countries with Britain giving them the opportunity of setting their products in exchange for her manufactured goods.

Steamers Collide

Montreal.—The Lady Somers, Canadian National Steamships (West Indies service) steamer, was in collision in the St. Lawrence river with the Terrebonne, a moonlight pleasure cruiser. No person was injured. Damage to the Lady Somers was negligible. The Terrebonne was crushed about the bows.

Leaves For Vienna

London.—Cutting short his holiday, Sir Walford Selby, British minister to Austria, left for Vienna to survey the situation personally and report to Sir John Simon, foreign secretary.

W. N. U. 2087

To Aid Stock Feeders

Credit Corporation May Help Farmers Through Winter Regina.—Provided reasonable assurance of the safety of investments is given, the Dominion Agricultural Credit Corporation has decided on a policy of advances to stock breeders and farmers to assist them in carrying young cattle through the winter. The decision was reached at a meeting of directors here.

The important decision which will in time affect the cattle industry of the three Western provinces, it is expected to result in the placing of between 5,000 and 10,000 cattle on feeder farms chiefly in Saskatchewan and Alberta this coming winter.

The meeting and discussion that led to this decision were urged by W.W. Sharp, Stettler, Alta., president of the corporation.

In all three provinces there are many breeders who have not the feed to carry their stock and who would be therefore compelled to sell on the fall market for what they can get. There are also many farmers having ample feed but no money to buy cattle. This aim of the corporation is to bring these two together.

Famine In Russia

Statement Says Not Less Than Five Million Persons Have Died

Montreal.—On a mission to awaken public opinion to necessity for aiding famine sufferers in Russia, Dr. E. Ammend, secretary of the international aid committee, was in Montreal recently.

The committee hoped, he said, to have surplus grain sent to Russia. Clergymen in Western Canada were interested in the project following his trip there, he said.

"Not less than 5,000,000 persons have died from starvation since 1929, the year our committee was formed," he claimed. "The next famine will be far worse than anyone can imagine. It has already assumed so serious an aspect that the Russian government has actually admitted there will be one, after doing its best to conceal the fact since our committee was formed."

"The areas affected are all near the Black Sea ports of Odessa and Rostov," he added, "which would simplify redistribution of grain."

Pool Payment

Final Cash Payment Received By Alberta Farmers

Calgary.—Cheques representing final cash payment on the 1933-34 voluntary pool have been mailed to all participating members by the Alberta wheat pool. The aggregate amount was not announced.

The final payment on No. 1 Hard was 18.317 cents, making the net total payment 68.317 cents per bushel, while for No. 1 Northern it was 19.063, with the total payment 69.063 cents per bushel.

Pool officials announced the initial payment on deliveries of wheat to the 1934-35 pool had been set, for the time being, at 35 cents per bushel.

May Go To Russia

Possible U.S. Army Bombers Will Make Goodwill Flight

Fairbanks, Alaska.—A possible goodwill flight across the Bering sea to Siberia was in the offing for the 10 United States army bombers.

Basing here for the squadron's three weeks stay in Alaska, Lieut. Col. Henry Arnold, flight commander, said extensive aerial photographic work and other military surveys will occupy the men.

Plans for the possible Bering sea flight were delayed pending approval of the war department.

Indian To Become Priest

Alberta Cree Completes Studies And Is Joining Oblate Order

Montreal.—The fourth Indian to become a priest of the Oblate order, Rev. Patrick Mercredi was in Montreal recently on his way to Normand, Alberta, where he will be ordained by Mgr. Breynat.

Mr. Mercredi, a Cree Indian, was born in Normandis and was educated at Indian schools in the Mackenzie district, at Edmonton, and at St. Laurent, Man. He has just returned from France where he completed his theological studies.

Heavy Salmon Pack

Vancouver.—The British Columbia canned salmon pack during the year ending June 30, 1934, totalled 1,003,929 cases, the Vancouver Merchants' Exchange reported recently. In the preceding year the pack totalled 830,256 cases.

German Minister Recalled

Is Censured For His Intervention In Vienna

Berlin.—The German government recalled Herr Reith, German minister to Austria, for his intervention in Vienna without the government's consent.

It was learned from private but reliable authority that Reith conducted the negotiations which led to the end of the Balhausplatz siege.

It was determined that, while still a prisoner, Minister Emil Fey telephoned to Reith, asking him to become assurances that Nazi plotters would reach the border safely.

After receiving such assurances, it was said he agreed to conduct negotiations in a personal capacity with a view to preventing bloodshed, and went personally to the chancellery.

England Gets Heavy Rain

Traffic Held Up And Lightning Causes Wide Damage

London.—Great thunder and rain storms have swept England, breaking the long drought and leaving everywhere a trail of havoc.

London experienced a downpour of tropical intensity and many roads were quickly under several inches of water. Traffic generally was held up, underground and surface train services were disrupted.

Hammersmith bridge was struck by lightning and cables underneath it caught fire, being extinguished by fire brigades.

A thunderbolt fell in a suburban hall and set it afire, scores of houses and shops were damaged by lightning, and many homes and buildings were flooded.

TENSE FEELING IN EUROPE OVER AUSTRIA'S LOSS

London.—Every capital in Europe is tense with expectancy and in some cases apprehension.

Twenty years to a day after Austria's severance of relations with Serbia, which placed Europe on the brink of the Great War, events caused fear to be expressed in Paris over the possible consequences of Austria's loss of independence.

The Italian ambassador to France consulted with the French foreign minister and it was unofficially said that telephone wires between Paris, Rome and London were busy with consultations.

France and the Little Entente view Austrian independence as vital to the peace of Europe.

In Praha, Czechoslovakia, it was said that only Austrian union with Germany would cause the Little Entente to interfere with Austrian developments, however.

At Berlin, reports that the Nazi putsch in Austria had been engineered from Germany met with denial, but there were "I told you so" expressions from the man in the street.

At the Vatican City the utmost regret and sympathy was expressed over the death of Chancellor Dollfus, an ardent Catholic.

Despatches from Munich said the news from Vienna accounted for recent activities of storm troops in Bavaria.

In Italy, where the populace was in a high state of excitement over the issuance of orders to the military, former service men's groups were said to be at war time pitch as news of Dollfus' assassination spread the kingdom.

Their deep resentment against Germany was freely expressed.

HON. HUGH ALLEN

New Minister of Lands and Mines and of Municipal Affairs in the reorganized Alberta Cabinet. Born at Stella, Ontario, Mr. Allen is a graduate in chemistry who took up farming in the Peace River country. He was elected M.L.A. for Peace River in 1926, and in 1930 was returned by acclamation for the new riding of Grande Prairie.

Aspects Of A Desert

Conditions In Southwestern Manitoba Said To Be Bad

Winnipeg.—Southwestern Manitoba is taking on aspects of a desert as the drought-stricken district this year has extended over a greater area than ever before, says a summary of crop conditions issued by the Manitoba department of agriculture.

A strip of land 20 to 40 miles wide along the international boundary shows scarcely a single good field of grain. Soil drifting was followed by clouds of grasshoppers and hot parching winds have withegged whatever crop promised to mature.

"There really is not a single district west of the Red River valley where along the boundary that has anything like a decent crop," the summary says. Wheat "might" yield five to 10 bushels an acre and oats and barley barely sufficient for seed purposes.

In the northern and eastern sections of Manitoba, conditions show sharp improvement. Conditions are good in the north, though more rain is much needed.

Japan Makes Final Offer

Wants Definite Answer From Moscow On Railway Question

Tokyo.—A spokesman for the foreign office revealed Japan has sent to Moscow a proposal demanding a yes-or-no answer on the potentially dangerous problem of disposal of the Chinese Eastern railway in Manchukuo.

The proposal was in the nature of a final offer to the Soviet government, the spokesman said, on protracted negotiations involving the transfer of the railway to Manchukuo. The line formerly was jointly operated by China and the Soviet.

It was made clear Tokyo considers that upon Moscow's answer depends whether the negotiations, already drawn out for 13 months, will be abruptly terminated, producing a dangerous strain upon Russo-Japanese relations, or their speedy and successful termination assured.

Will Visit Prairies

Welland, Ont.—En route to Calgary from Riverhead, N.Y., R.H. L'Hommedieu crossed the Peace bridge on his specially constructed English bicycle. The 2,500-mile jaunt will take him through Ontario, Manitoba, Saskatchewan and part of Alberta.

The bicycle's special equipment includes a free-wheeling system to make hill-climbing easy.

MEMBERS OF SASKATCHEWAN CABINET

Left, R. J. M. Parker, veteran member of the Saskatchewan Legislature, who is Minister of Municipal Affairs in the new Liberal Cabinet and, right, Dr. J. M. Uhrich, Minister of Public Health. Dr. Uhrich, who held the portfolio prior to 1929, is a Northern physician.

World Wheat Shortage

Extra Needs Shown In New Statistical Survey

London.—Wheat-starved countries of the world will have to depend for extra needs on Canada and Argentina, a new statistical survey reveals.

Weather conditions have cut down the crop in the United States, completely changed the average favorable outlook in the Danube basin, made crop forecasts in Russia extremely uncertain and assured only mediocre production in Australia.

Even Canada's crop has been reduced considerably by heat waves of recent weeks.

Wheat experts here have watched a steadily mounting total of reports in recent weeks indicating disastrous prospects for the world's wheat production estimates. Prices are going up, well over last week's figures. It would appear that nearly every wheat-producing country has been more or less affected.

According to British government statistics, the estimated seasonal total of 483 million bushels shows a reduction of 150 million bushels for domestic consumption, and hence there will be virtually no wheat in the United Kingdom available for export, as reserves must be held for next season as usual.

B.C. Minimum Wage

Board Of Industrial Relations Sets The Scale

Victoria.—Thousands of adult workers in the mercantile industry of British Columbia are affected by a minimum wage order completed by the board of industrial relations.

Under the scale every adult employee in a wholesale or retail establishment must receive a minimum of \$15 a week, providing he works 40 or more hours a week.

For those working less than 40 hours a week the scale is 40 cents an hour with a minimum of \$1.60 a day.

For youths from 18 to 21 years of age the scale is graduated according to the period of employment as follows: First three months, \$9 a week; second three months, \$10; third three months, \$11; fourth three months, \$12. Thereafter until the age of 21 is reached, \$12.75 a week.

ITALIAN TROOPS ARE BEING HELD IN READINESS

Rome.—A statement emanating from official sources said that the Austrian government had requested intervention by European powers to guarantee Austria's integrity.

The statement, which was given to the government-controlled press, was published shortly after it was announced that Premier Mussolini had issued war time military orders to army, navy and air forces to the north of Padua.

The inspired press reported that diplomatic representatives of Italy, France, England and the Little Entente countries will hold an urgent conference at Vienna to determine what action should be taken.

The conference also will decide which of the powers should intervene in case armed assistance is determined upon.

Italian troops are prepared to march into Austria on short notice.

Leaves were cancelled, and each unit was told to keep itself in full strength with all of its mechanical war devices in order.

The order applied to 75,000 men north of Padua.

At the same time an official communique was issued stating that the first naval squadron had left Port Ancona.

The communique did not give destination of the squadron, but naval circles said that it is moving into the North Adriatic, particularly Port Trieste, to keep in touch with Austrian developments.

The Italian press regarded with particular animosity the part the German ambassador played in the granting of safe conduct to the killers of Dollfus who was to come to Italy to confer with Mussolini.

It Duce was keeping a vigil at Riccione.

No effort was made to disguise the fact that the Austrian question is viewed in a very grave light.

"Italy is in the first line of defence for the peace of Europe," said an authoritative editorial which the newspaper Popolo Roma will publish. It is deemed if not impossible to deny that Germany has had grave responsibility in that which has occurred in Austria.

PATULLO PLEADS FOR A BETTER UNDERSTANDING

Field, B.C.—"If the confederacy of Canada is to endure it must be on a basis of mutual understanding and fairness," Premier R.D. Patullo of British Columbia emphasized as he halted briefly on his way to the Dominion conference on unemployment relief convened at Ottawa.

"We are today sitting on a volcano with America fast drifting toward the condition of Europe and apparently everybody helpless," he said.

"So far as British Columbia is concerned, we are one of the most favored parts of the world in respect to natural conditions, but in our own small way we must play our part in the present world economy."

Referring to a despatch which said he had his ministers were going to the capital on "peaceful occasion," the Premier said the federal government's intention to reduce federal aid, the premier said: "We are proceeding east on the invitation of the Dominion government to a conference of the provincial premiers and the Dominion government on the question of unemployment. Prime Minister Bennett was good enough to advise that the Dominion government would hear British Columbia's representations with respect to better terms and the Pacific Great Eastern Railway on the present occasion, thus saving us the trouble of returning to Ottawa later in the fall. We are not proceeding east in the spirit of protesting against, but rather in the spirit of advocacy for."

Judgment Favors Pool

Steamship Company Ordered To Pay For Damage To Cargo of Wheat

Montreal.—In virtue of a judgment of the privy council the Paterson Steamship, Limited, is ordered to pay \$76,911 to the Canadian Co-operative Wheat Growers, Limited, for damage caused a cargo of wheat shipped at St. John's via Port Colborne, Ont., for Montreal in the Sarnia.

The vessel was stranded on Main Duck Island and the cargo was practically a total loss. Plaintiff company sued for the value of the cargo, less salvage.

The defendant company pleaded under the Water Carriage of Goods Act, claiming the boat had been properly manned and due diligence was shown in the navigation. The court of king's bench of Quebec, appeal side, upheld the claim of the plaintiff in a judgment rendered on March 29, 1933.

Appoint Guardians

Protection To Be Afforded The Young Quinquets

Toronto.—In an effort to prevent the famous Dionne quinquets of Corbeil from "certain death in some vaudeville show," Attorney-General Arthur W. Roebuck obtained an order appointing guardians for the five two-months-old daughters of Mr. and Mrs. Oliva Dionne.

The order, obtained from District Court Judge H. D. Leask, named as guardians Dr. Allan Ray Dafe of Callander, the northern Ontario physician, credited with keeping the infants alive longer than any other known quinquets, W. H. Alderson of the Red Cross emergency committee; Kenneth Morrison, Callander merchant; and Oliver Dionne, the babies' grandfather.

Soil Drifting

Co-Operation Of Federal And Provincial Governments Is Sought

Winnipeg.—Co-operation of federal and provincial governments on the problem of soil drifting was sought here by Dr. E. S. Hopkins, of the Dominion experimental farm at Ottawa, now on a survey trip across the prairie provinces.

He planned to confer with agricultural officials of the Western governments, and discussed the situation here with J. H. Evans, deputy minister of agriculture in the Manitoba government.

Plans To Be Announced

London.—What arrangements may be made for celebration of the silver anniversary of the accession of King George and Queen Mary next year, will be outlined in an announcement which it is hoped to make in the house before it rises for the summer vacation, said Acting Prime Minister Stanley Baldwin.

"You Can't Stop stoking a steam engine" *said Wrigley*

Interviewed, and asked to what he attributed his phenomenal success, the late Mr. Wrigley, of chewing gum fame, replied, "To the consistent advertising of a good product."

"But," asked the reporter, "having captured practically the entire market, why continue to spend vast sums annually on advertising?"

Wrigley's reply was illuminating.

"Once having raised steam in an engine," he stated, "it requires continuous stoking to keep it up. Advertising stokes up business and keeps it running on a full head of steam."

This applies to your business, too. Don't make a secret of your product. Tell people all about it. Tell them what it does. Tell them its advantages. Tell them where to get it. Tell them through the Press and keep on telling them.

HEAVY COST OF HIGHWAYS

Automobile owners in Canada are paying a heavy price for the use of roads of which there are 393,320 miles open for highway traffic in Canada in the most recent figures of the Dominion Bureau of Statistics. Of this total 91,211 are surfaced and 307,009 are unsurfaced. All these roads are outside of incorporated cities, towns and villages under the jurisdiction of provincial highways departments and also such roads under local jurisdiction.

The price of these roads to Canadian motorists in 1932 in the form of taxes on gasoline and registration amounted to \$48,209,587 which is collected, under the original plan, for building and maintaining roads. This amount was paid by slightly more than 10% of the population who owned motor vehicles in this year, 1,114,503 registrations being included in the bureau's figures.

In the previous year, the bureau showed a grand total of 398,296 miles of road open for traffic, so in the 12-month period there was an increase of only 24 miles in the whole of the Dominion, while revenue from registrations and gas tax increased from \$42,231,027 to \$48,209,587 in the same period.

Capital expenditures on roads in 1932 showed a drop of \$14,353,328 from 1931, while maintenance expenditures in 1932 were \$687,633 below the 1931 figures.

In the same period government collections in gasoline taxation and registration fees increased by \$5,978,560 and last year preliminary reports of the bureau show a further increase of \$6,747,756 over the 1931 figures for gasoline taxation and registration.

While two hot-mouthed speakers were attempting to address an audience in Blairmore last week of mostly women folks, they were interrupted by the howling of cats. The speaker of the moment hesitated and remarked: "Well, if the cats' howling is more important than ours, we'll quit!"

VARICOSE ULCERS --- OLD SORES HEALED AT HOME

No enforced rest. No operation nor injections. The simple Emerald Oil home treatment permits you to go about your daily routine as usual—while those old sores and ulcers quickly heal up and your legs become as good as new.

Emerald Oil acts instantly to end pain, reduce swelling, stimulate circulation. Just follow the easy directions and you are sure to be helped—druggists everywhere.

FOSSILIZED REMAINS OF MARINE MONSTERS SHIPPED TO OTTAWA

The fossilized remains of two prehistoric "sea serpents" dug from clay beds northwest of Morden, Manitoba, where they lay buried for an estimated period of 60,000,000 years, have arrived in Ottawa. Mr. C. M. Sternberg, of the National Museum, who directed the digging operations which attracted thousands of curious visitors to the scene of discoveries, has returned to Ottawa and is to supervise the preparation of the two mosasaur skeletons for exhibit. A suitable location in the crowded halls of the museum has yet to be decided upon.

The larger of the two skeletons is probably the longest of which there is any record, Mr. Sternberg advises. As excavated it measured 33 feet, but a considerable portion of the tail is missing, and its total length probably exceeded 40 feet. The smaller skeleton is 15 feet long with a portion of the tail also missing. Combined shipping weight exceeds two tons. Discovery of the two skeletons marks the first occasion that any considerable part of the fossilized remains of mosasaurs have been found in Canada, though fragments have been found near Miami, Manitoba, a few miles to the north of the site of the present discoveries.

Mr. Sternberg describes the mosasaur family as most nearly related to the modern aquatic monitor. By a gradual process of evolution they developed from land animals to become adapted to sea life only. Their occurrence in Manitoba is explained by the fact that at the time of their existence a great sea extended from the Gulf of Mexico to the Arctic ocean, dividing the North American continent in two, and covering the greater part of Manitoba and Saskatchewan, with its swampy western shore extending into Alberta. Dinosaurs and other land animals roved the swamps that bordered the western shore, while the mosasaurs inhabited the shallow seas lying to the east.

Possessing a flat, V-shaped skull, more or less elongated, but large in proportion to the remainder of the skeleton, the mosasaur was particularly well adapted to an aquatic life. Of very predacious and pugnacious habits, it apparently depended upon its sudden and quick lateral movements, for which its powerful and flexible paddles were admirably suited, for the capture of prey. Its shape, though slender, does not suggest extraordinary speed in the water. The teeth are sharp, conical and recurved, and occur in the upper and lower jaws, and on the roof of the mouth. Looseness of the two sides of the jaws facilitated the swallowing of prey. Its long slender trunk terminated with a long slender tail.

It is rather significant that no fossil remains of the very young animals have yet been found despite the thousands of mosasaur skeletons that have been collected during the past sixty years. Embryos have never been discovered, though numerous skeletons enclosing fossilized stomach contents have been found. This fact suggests that the mosasaurs were oviparous as are most other lizards.

As geological time is measured, mosasaurs reached their culmination in size, numbers and variety in a relatively brief interval, and disappeared forever near the close of the cretaceous period.

The happy hunting ground of mosasaur collectors is the chalk formations of Kansas. Here specimens have been found of such a perfect state of preservation that there is scarcely anything concerning the prehistoric animal that is not known. The character of its food, the nature of the skin covering, and even some of the color marking of living animals have been determined with certainty.

The two skeletons found in Manitoba will probably be exhibited in gaud mount, the bones being left in the original matrix, but cleaned up to be more readily examined.

DILLINGER'S CRIME LIFE IN BRIEF FORM

CHICAGO, July 23.—Important dates in the career of John Dillinger: June 28, 1901—Born in Indianapolis. His mother died a short time later.

1914—Baptized in the Hillside Avenue Disciples of Christ Church at Indianapolis.

1919—Quit school to work as a machinist.

1920—Moved to Mooresville, Ind., with his father, John W. Dillinger, who bought a farm there.

1921-22—Laid off, hunted, fished, and played amateur baseball.

July 23, 1923—Enlisted in the United States navy after being flitted by a Mooresville high school girl.

December, 1923—Deserted the navy at Boston.

April 12, 1924—Married Beryl Horne, 16 years old, of Mooresville.

Sept. 5, 1924—With a companion, slugged a Mooresville grocer in an attempted robbery. Sentenced to 10 to 21 years in the Indiana Reformatory.

1929—His wife divorced him. She now is married to a farmer in Morgan City, Ind.

July 15, 1930—Transferred to the Michigan City Penitentiary as an incorrigible, after two unsuccessful attempts to escape.

May 22, 1933—Freed on parole by Governor Paul V. McNutt, of Indiana. His step-mother died 15 minutes before he reached home.

July 17, 1933—Held up a bank at Daleville, Ind., taking \$3,090.

Aug. 4, 1933—Robbed a bank at Montpelier, Ind., of \$10,000.

Sept. 22, 1933—With two companions, robbed an Indianapolis bank of \$28,000.

Sept. 25, 1933—Captured in Dayton, O., during visit to a girl friend, Mrs. Mary Langraker. Sent to Lima, O., jail.

Sept. 26, 1933—Four members of his gang and six other convicts escaped from the Michigan City Penitentiary.

Oct. 12, 1933—Three members of his gang took him from the Lima jail, killing Sheriff Jess Barber.

Oct. 14, 1933—Raided Auburn, Ind., police station, looting it of machine guns, pistols and bullet-proof vests.

Oct. 21, 1933—Executed a similar raid on the police station at Greencastle, Ind.

Oct. 23, 1933—Robbed a Greencastle bank of \$75,000, after which he drove to Florida.

Nov. 15, 1933—Eluded a police trap set for him as he left a physician's office in Chicago.

Nov. 20, 1933—With his gang, held up a bank at Racine, Wis., taking \$25,000.

Dec. 13, 1933—Looted vaults of Unity Trust and Savings Bank, Chicago, of \$5,700 and a large amount of jewelry.

Jan. 15, 1934—Led a robbery of the First National Bank of East Chicago, in which policeman Wm. P. O'Malley was slain, John Hamilton, Dillinger's chief lieutenant, was shot, and \$20,000 was taken.

Jan. 25, 1934—Captured with three of his gang and three women, at Tucson, Ariz.

Jan. 30, 1934—Brought from Tucson to Chicago by plane and locked in Lake County, Ind., jail at Crown Point for trial on charge of murdering Policeman O'Malley.

March 3, 1934—Escaped from the Crown Point jail with his famous toy pistol.

March 31, 1934—Shot his way out of a police trap in St. Paul, taking with him his French-Indian sweetheart, Evelyn Frechette. Dillinger was wounded in this encounter.

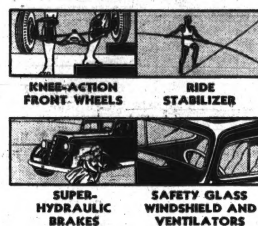

April 7, 1934—Visited his father at Mooresville while being hunted throughout the country.

April 13, 1934—Robbed Warsaw, Ind., jail of bullet-proof vests.

April 22, 1934—Surrounded with members of his gang by Federal agents in Little Bohemia resort, on Spider Lake, in northern Wisconsin, the gang shot their way out, a Federal agent and a bystander being killed.

May 25, 1934—Reward of \$5,000

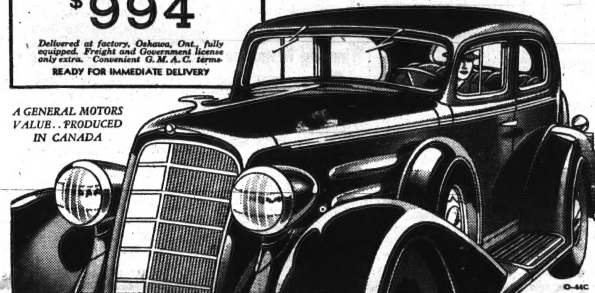

LOW-PRICED to place Oldsmobile Ownership within reach of 8 OUT OF 10 CANADIAN MOTORISTS

Local and General Items

At any rate, the good blondes dye young.

It is queer that the stork does not sing when he brings so much fun wherever he lights.

Abie (finishing letter): "And I would send you that five I owe you, but I've already sealed the letter."

Someone remarked that if Dillinger had been half shot he might have got away.

It takes five hundred bolts and puts to make a modern automobile, but only one nut to wreck it.

When an Alberta chief of police attempted to interrupt a young couple in their spooning, the girl remarked: "Now, mister, I'll charge you with contempt of court."

There is not much difference between you life and love. Life is just one fool thing after another, and love is just two fool things after one another.

Too much bellyaching, too much sobbing for "relief" have so-far-fetched many a heart. As soon as we turn backward to a few pioneer principles, illustrated by the buckaw and elbow grease, then we will work out of this morass into which we have fallen.

We've been kidding ourselves too long about a two car garage for every home and a chicken in every pot. We have learned from experience that we may reap just exactly what we sow. Nature has a wonderful way of balancing the lead—Holden Herald.

Polar bears propel themselves through the water by the use of their front paws only. Human beings use their hind.

A guy named Fortunat Pigeon was fined fifteen dollars for reckless driving at Drumheller. He wasn't such a fortunate bird after all.

His Lordship, Mr. Justice E. C. Webster, returned from the Calgary bull-fight and his sight-seeing trip of the famous "Jasper Avenue and lonely trail" last week, and resumed his duties with the gavel at the Monday morning's police court sessions.—Stavely Advertiser.

All the most injurious grasshoppers in Canada shed their skins on an average of five times during the course of their development. The grasshopper's skin does not keep pace with the growth of the insect, so this pest goes through the several processes of molting by hanging upside down attached by its legs to some support and slowly wriggles out of its old coat.

COUNTER CHECK BOOKS—order them at The Enterprise office at the same price as you can get them at the factory, or from a traveller. Keep as much money as you can in Blairmore.

WORLD HAPPENINGS
BRIEFLY TOLD

An unusually severe heat wave in France caused the 984-foot Eiffel Tower to stretch eleven inches upward between sunrise and sunset, engineers said.

The total cost of Great Britain's extended air force program up to 1938 will be about \$100,000,000, the house of lords was informed by the secretary for air, Lord Londonderry.

France has decided to invite all the nations of the world to take part in a great international exhibition in Paris in 1937. Its estimated cost is \$20,000,000.

The British Columbia canned salmon pack during the year ending June 30, 1934, totaled 1,003,929 cases, the Vancouver Merchants' Exchange reported. In the preceding year the pack totaled 830,256 cases. Hundreds of acres of sugar beets that failed to germinate because of the drought, have been plowed under by farmers in the Chatham district, according to W. H. Riddle, of the Ontario department of agriculture.

Premier T. D. Pattullo of British Columbia announced that a mountain in Mount Robson Park in British Columbia was named "Mount George Graham" in honor of Rt. Hon. George P. Graham.

Establishment of a free wheat market in the Soviet Union has been announced, and will take effect after delivery of the present harvest. The decision was made in June by the Communist party congress.

Hon. Irene Parbury, U.F.A. member for Alis and minister without portfolio in the provincial cabinet, announced at a U.F.A. constituency convention that she would not stand for nomination again.

Italy has accepted the British government's invitation to engage in conversations prior to the 1935 naval conference, and the Italian delegation will be in London at the end of the summer or the beginning of the fall.

Ramatch Chawla, the first Indian to make a flight from India to England has started on the first stage of his planned flight around the world. He is going first through Baghdad, Aleppo and Istanbul, travelling eastwards.

Canada's total exports of paper and manufactures of paper during June were \$7,277,892. This was lower than in May when the total was \$7,487, but considerably greater than June of last year when it was \$5,988,610.

How Dr. Grenfell Procured Radium For His Work In Labrador

How Sir Wilfred Grenfell once converted pearls into radium is another of that Labrador physician knight's almost inexhaustible anecdotes, and he told this one as he sailed aboard the steamer New Northland for his forty-something year in black Labrador.

"It was in Pittsburgh," Sir Wilfred recalled, "and the women there were not only exquisitely gowned but a number of them had long strings of pearls. 'Ladies,' I said, 'if each of you would give me just one pearl from those strings which there are so many, I could buy some radium and fight cancer at my hospital.'"

Sir Wilfred said it was agreed. He got the pearls, and bought the radium.

Unearth Sea Serpent

Ancient Specimen Is Discovered By Geologists In Alabama

What may be the "daddy" of sea serpents, a mosasaurus, has been unearthed in exploration of the Alabama geological department, Dr. Walter L. B. Jones, state geologist, disclosed recently.

"We have already taken out 10 feet of a 35-foot mosasaurus near West Green, in Greene county, that probably is 70,000,000 years old," Dr. Jones said.

"And in the same county, near Entwaw, we have unearthed a two-ton turtle, possibly as old. Both were encased in chalk of the cretaceous age."

"Then there was the plumber's daughter who went to church without her bridal veil."

"Yes, and had to go back for her tulle."

The Canadian milling industry provides a market for about 15 million bushels of Canadian grown barley in the manufacture of food products and feeds.

OGDEN'S "Alls well that Smokes Well"

Wheat Champion

Elftos Grover Is Winner At Saskatoon Exhibition

Frank Isaacson, Elftos, Sask., winner of the world's championship at Chicago in 1933, was made wheat champion at Saskatoon industrial exhibition. The sample of Reward wheat shown by Mr. Isaacson is possibly the same as captured the Chicago honor. H. J. Davies of Edfield, a nearby district, was second and Kalman Bacskai, Leask, provincial champion, was third in the Reward class.

In Marquis, C. H. Conn, Aberdeen, had first place with K. Conn of the same district second. H. G. Newfield, Codette, who takes of a 40-bushel crop on his farm in the far northeast this year, was the leader in oats, and E. Thompson, Fathlow, won the Speers trophy for the best peak of barley with his six-row sample. H. A. Myers, Vanscoy, led in two-row barley.

By Ruth Rogers

THE SAILOR "GAL" DRESS A FAVOURITE WITH GROWING DAUGHTER—IT'S SO SMART—PRACTICAL

Here's an attractive little model. Little daughter will be so proud to wear it. Don't you think it really lovely? And it's so easily fashioned for a very small outlay. You'll be surprised.

It can be white linen, peasant cotton, pique, lawn, etc. Make the sailor collar, tie and belt of navy blue. A blue leather belt can be worn, if you prefer it.

The tailored sleeves with plaits are especially smart and cool. Similar plaits in the skirt allow plenty of freedom for action.

Another nice idea is to carry it out in nautical blue and white dotted plait with white pique trim.

Style No. 435 is designed for sizes 8, 10, 12 and 14 years. Size 8 requires 2 1/4 yards of 38-inch material with 1 yard of 38-inch contrasting and 3 1/4 yards of braid.

Price of pattern 20 cents in stamps or coin (coin is preferred). Wrap coin carefully.

Little Journeys In Science

RAYON

(By Gordon H. Quest, M.A.)
Rayon, or artificial silk, which has become in recent years a widely used product, resembles good paper in that it consists of pure cellulose. Four different processes have been perfected for its manufacture, but of these the viscose process is used for over 80 per cent. of the world's rayon production.

High grade bluish white wood pulp (usually taken from spruce trees), is the starting point for the production of artificial silk. Canada supplies almost 40 per cent. of the world's requirement of wood for this purpose. This material, which consists largely of cellulose, is treated for two hours with a weak solution of caustic soda, which results in the formation of alkali cellulose. Canada's moisture is squeezed out of this alkali cellulose, and the material is then torn to shreds, which are left for 24 hours in a closed vessel.

A liquid known by chemists as carbon disulphide is now added, producing a solution called viscose. This solution is allowed to "ripen" for a day or two, after which it is ready for spinning. This is accomplished by forcing the viscose through fine holes, into a preparation of dilute sulphuric acid. The acid causes the fine jets of liquid to change into threads, which are spun into the material we know as rayon.

This artificial silk is altogether different from the natural product. It lacks the tensile strength of pure silk, but it has a fine appearance, and this combined with its cheapness has led to it being used extensively either alone or as a mixture with wool or cotton.

Noted Talking Bird Dead

Provided Amusement For Many Visitors To St. Louis Zoo

Jocko, famous talking Minn, one of the various Oriental starling-like birds, at the St. Louis zoo, is dead from old age.

Jocko amused zoo visitors for six years. His repertoire included the following phrases: "Hello Jocko," "How do you like the zoo?" "Anybody home?" and "Boy, how much money you got?"

Jocko appeared in several talking newsreels. He will be replaced by another Minn, which was Jocko's understudy.

Laurence de Gusmano, a Brazilian priest, was the recipient of the first aviation patent. It was granted to him by the king of Portugal after the priest had made a successful balloon ascension at Lisbon.

Macaroni products are said to have originated in China and Japan; but the Italians, who were using macaroni in the fourteenth century, learned about it from the Germans.

When Nature Steps In

U.S. Crop Reduction Program Is Not Needed

Nature, stepping in as an unwelcome assistant to the United States government's crop reducing program, has made it overshoot a goal or two. A survey showed that the figures aimed at in the five major divisions—wheat, cotton, corn, tobacco and hogs—either have been virtually reached or surpassed.

Drought, insects and floods gave the reduction drive a mighty but unwanted shove along its course.

It has become apparent to directors of the plan that some surpluses they regarded as obnoxious a year ago would be needed to avoid shortages this year.

Wheat, the bread grain, averaged \$44,812,200 bushels during 1932-33. The government sought to cut that down to 718,000,370. Now the July report indicates a crop of only 483,622,000 bushels.

The cotton program promises to hit the mark closer. The average in 1932-33 was 14,057,000 bales and the farm administration sought to pull it down to 10,460,251 bales. Official indications now point to 10,195,342.

Recipes For This Week

(By Betty Barclay)

CHEESE CAKE

1/2 cup butter
1/2 cup sugar
5 egg yolks (well beaten)
2 teaspoons lemon juice
1 teaspoon lemon rind
1 pound cottage cheese
2 tablespoons cornstarch
1/2 cup cream

Cream the butter and add the sugar. When thoroughly mixed, add the egg yolks, lemon juice and rind. Beat thoroughly. Put the cottage cheese through a colander or ricer several times until very fine. Add the cornstarch and cream. Combine with the first mixture. Fold in beaten egg whites. Press corn cake pastry in the bottom of a spring form mold.

Pour in the cake mixture. Sprinkle top with finely grated almonds, sugar and cinnamon. Bake in a moderate oven (350 degrees F.) until firm, about one hour.

MACEDONIA OF VEGETABLES

2 carrots, cooked and diced
1 cup peas, cooked
1 cup string beans, cooked
1 onion.
1/2 cup celery, sliced
2 teaspoons sugar
1 tablespoon butter
1/2 cup meat stock or bouillon
Salt and pepper.

Slice the onion. Fry until soft in the butter. Add the other ingredients. Simmer gently until the vegetables are well heated and the stock is absorbed. Other combinations may be used according to what one has on hand.

NEW CUNARD WHITE STAR LINER

—Cunard White Star Photo.

Making her first arrival at Montreal under the house flags of the new Cunard White Star Limited, the S.S. Laurentic, big 10,000-ton liner docked at Montreal, Saturday, July 14, from Glasgow, Belfast and Liverpool. Her master is Captain R. Sewell Quinn, and she sailed out again from Montreal on her first departure under the new regime on July 20.

SUNDAY SCHOOL LESSON

AUGUST 5

ELISHA HELPS THE NEEDY

Golden Text: "Inasmuch as ye did it unto one of these my brethren, even these have ye done unto me." Matthew 25:40.

Lesson: II. Kings 4:1-44.

Devotional Reading: Psalm 41:1-4.

Explanations And Comments

A Widow Helped, verses 1-7. No one can read the miracles recorded in this chapter as wrought by Elisha without remarking their similarity to some of those recorded of Elijah. Both multiplied the substance of a needy widow; both restored a dead child to life. The multiplying of the loaves and grain brings to our mind, of course, the miracle wrought by Jesus in feeding the multitude.

In our first story there is a widow in sore distress. The law allowed a creditor to take children as bondmen for a debt—see Leviticus 25:39-41—and this woman's creditor was about to take away her two children. Elisha appealed to Elisha for help. The method which Elisha is said to have employed to relieve her distress differs from that of most miracles of the Bible. What had she in the house? He inquired. Oil, a pot of oil. Borrow all the empty vessels you can from your neighbors, fill them from the pot of oil which you possess, then sell the oil, pay your debts, and live upon the remainder of the sale price, was his counsel. Her needs were supplied by a divine mercy which the oil that flowed as long as she had any empty vessel to receive it is a type.

Famine Sufferers Helped, verses 38-44. There was a great famine in the land and the prophets were in dire need. Elisha made numerous pots safe for them to eat, verses 38-41, and then he made a little food go a great way. With twenty barley loaves and a small amount of grain, which had been brought to him as a present, he fed a hundred people. "What, before I set this before a hundred men?" his servant exclaimed in great surprise when directed to feed them all. Said Andrew to Jesus: "There is a lad here, who hath five barley loaves and two fishes; but what are these among so many?" John 6:9.

So he set it before them, and they did eat, and left thereof, according to the word of Jehovah. "According to the word of Jehovah," the ministry of this man was wholly a ministry of the word of the Lord. "By all his activity he was demonstrating to those who had the spiritual capacity to appreciate how good and beneficent were the thoughts and instructions of God concerning his people. His deeds were expositions of his message." (G. Campbell Morgan).

Strange Ceremony

Hindu Funeral Of Indian Princess Attracts Attention In England

Amazed villagers, of Tooting, England, through a surrounding scene of canvas witnessed an exotic funeral ceremony as the body of the Princess Shumabere Jung, beautiful wife of the Nepalese minister to Britain, wrapped in winding cloths, was burned on a ghat (funeral pyre) built of fragrant wood, Indian oils and butter costing \$2,500.

The ashes will be taken to India to be scattered on the sacred Ganges at Benares. Nepal, a forest kingdom in the foothills of the Himalayas to which white men are barred, is credited with full sovereignty by the British government, which was represented at the funeral for which special permits had been granted to allow it to be held according to the ancient Hindu rights.

In order to ascertain the suitability of potato flakes as cattle fodder, researches have been made in Germany where potato flakes have been manufactured for a number of years. Based on the feeding value of the product, a conclusion has been reached that they may be used with satisfactory results. Mixed with other feeding stuffs, they are said to be suitable for hogs and poultry.

Butterflies spend the cold winter months in various stages; some go through the winter as eggs, some in the chrysalis stage, some as larvae, and some hibernate in adult form.

Church steeples are descended from the tower of Babel, architecturally, the ancient idea being to approach heaven as nearly as possible in worship.

Agricultural Notes

Interesting Items Gleaned From Many Sources

Cattle can eat poison ivy with impunity but dogs are poisoned by it. For the past seven weeks, the amount of United States wheat in Canada has been shown as two bushels. On July 6 last year, the amount was 3,950,798 bushels.

In tests for feeding dairy cattle at Montana, it was found that the consumption of hay by growing heifers was increased by diluting molasses and sprinkling over the hay.

With the exception of corn and sugar beets which show increases, there is little change in the acreages of late-sown crops in Canada, according to the preliminary estimate.

The export of Canadian cattle to Great Britain for this year up to July 12 totaled 26,115 head as compared with 23,961 during the corresponding period of last year.

For the first 28 weeks of 1934, ending June 17, the amount of eggs graded in Canada was 1,719,795, a decrease of 55,339 compared with the same period of last year.

Butter, tallow and dried currants, wheat and wheat flour are the four Australian products which do not receive the benefits of the British preferential tariff when imported into Canada.

"Handpicked" in the Fruit and Honey Act, 1934, means that, as applied to apples, pears, peaches, apricots, and cherries, they will be considered handpicked unless they show evidence of rough handling or of having been on the ground.

The exporting of approximately a million pounds of Canadian poultry during the last three or four months has had a very beneficial effect on the Canadian market and has opened up an encouraging avenue of trade for subsequent development—Egg and Poultry Market Review.

The thorn apple, a poisonous weed belonging to the nightshade and potato family, has a variety of names—Jamestown or Jimson weed, stramonium, devil's apple, mad apple, and stinkwort. Canadian Indians speak of it as "the white man's plant." It was introduced into Canada among garden seeds.

Markings of wheat in the prairie provinces up to June 29, 1934, as compared with the corresponding period of 1932-33, were, figures within brackets being those for 1932-33: Manitoba, 27,753,972, (37,275,275) bushels; Saskatchewan, 106,410,150 (182,339,342) bushels; Alberta, 82,302,217 (140,804,807) bushels.

The methods used by our fathers are frequently referred to us as ideals. Many of these have been verified by scientific study, others have been disproven. I am sure our grandfathers tried to follow the best methods evolved by our forefathers and to improve upon them as we have. It is up to us to do the same. Science endeavours to establish the truth.—J. F. Hockley, Dominion Laboratory of Plant Pathology, Kentville, N.S.

Owes Freedom To King

Man Who Hurlled Bottle At Royal Car Discharged

A man who hurled a bottle at the king and queen was discharged at police court hearing and, it was believed, had the king to thank for it. The object was thrown as their Majesties were making their way to Edinburgh from Harthill. It struck the pavement a few yards behind the royal car.

His Majesty expressed a wish the man be freed, it was understood.

Had Busy Holiday

During eight hours of liberty a ferret which escaped from its cage at night at a poultry farm in Massfield, England, killed 497 chickens. In its brief holiday it raided 20 poultry houses. When captured it was joyously starting to other adventures.

Prince George is to present to the Edinburgh Zoo three lion cubs given to him by the municipality of Lydenburg, Transvaal, during his present visit to South Africa.

CENTRAL MEAT MARKET

Phone 234 V. KRIVSKY, Prop. P. O. Box 32

Truro, Nova Scotia, is staging a colored ladies' beauty contest. Two rebels have been hanged for the murder of Chancellor Doffuss.

The Grand Orange Lodge of British America has been invited to hold their next session in Nova Scotia. L. H. Carver, district drummer for P. Burns & Co., Ltd., moved to Fernie this week, where they will in future reside.

Ronald, eldest son of Mr. and Mrs. J. Angus McDonald, of the Royal Bank staff at Foremost, spent his vacation here, returning to Foremost this week. We caught a fish in The Gap on Friday last that tipped the scales exactly at one pound. A friend remarked: "Shure, the hand won't move hither nor thither."

Forest fires which raged in the vicinity of Vickery Creek and Goat Mountain for several days are now well under control. For a while the village of Frank appeared to be in great danger. In London, Ontario, children under sixteen will be warned to be home by nine o'clock in the evening, after which they can sit on the porch and wait for the rest of the family to show up.

Remember the big baseball game here tomorrow evening—House of David versus the Blairmore Canucks. A dance under auspices of the Blairmore baseball club will be held in the Columbus hall at night. While playing, the little daughter of Dr. and Mrs. J. S. Hynes fell from toe running board of her car recently at Claresholm and suffered a compound fracture of the arm just above the wrist.

And now we have dated cheese. All Canadian cheese and all packages containing cheese are henceforth to be marked with the date of manufacture. Martin Kubik handed us a mouthful of cheese a few days ago bearing date August 1st, 1934. As we go to press a new outbreak of fire has occurred on the summit of Goat Mountain, northeast of town, with a slight breeze of wind from the southeast is gaining alarming proportions.

Local and General Items

The Editor will be pleased to receive items for this section, regarding visitors entertained, parties leaving for holidays or short trips, bridge parties, teas, etc. Phone items, in to 11 or hand them in at The Enterprise office no later than Wednesday evenings.

Mrs. A. Vejprava, Roy and Gordon are holidaying at Waterton Lakes.

Mrs. C. M. Lorbalestier and son Duncan were visitors to Calgary last week.

The Ping-Pong harbor at the corner of Sixth Avenue and State Street is being treated to a coat of paint.

Born on Wednesday, August 1st, to Mr. and Mrs. James Anderson (nee Freda Brown), of Coleman, a son.

A schoolboy says a person should take a bath once in the summer, and not quite so often in the winter.

C. M. Lorbalestier and family have moved into the Olivier residence at the Corner of State Street and Eighth Avenue.

A roll of money lost by a Blairmore man last week was fortunately picked up a few minutes afterwards by his little son.

Thirty years ago, three young ladies and a little lad were drowned while trying to ford the Old Man river near Macleod.

Mrs. J. Angus McDonald left the early part of the week for a visit with her daughter, Mrs. P. Wannock, in Port Angeles, Washington.

Premier Ramsay MacDonald, who is spending a holiday in Canada, will be guest at the Prince of Wales' ranch at High River for a short time.

Mr. and Mrs. F. Swann and daughter Joan left this morning for Lethbridge, where they will spend a few days before proceeding to Edmonton.

Mrs. Johnson (formerly Mrs. Frank Hinds, of Blairmore), of Breton, Alberta, accompanied by her son Earl, are visiting guests of Mr. and Mrs. C. H. Erikson.

As we go to press, we learn that Arthur Gibbons, well known resident of Lethbridge, died from injuries sustained in an auto accident a short distance west of Macleod.

George Shearer was able to leave the hospital on Friday, after a lengthy stay. He will not, however, be able to resume work for a week or so, yet—Kimberley Courier.

Mike Yagos, a Cowley boy, carried off highest honors at the Rock Creek, B.C., rodeo. He came first in bronk riding, steer riding and steer dogging, and was announced as the best all-round cowboy.

Mr. and Mrs. L. A. Campbell, of Calgary, passed through Blairmore on Friday, enroute home from a holiday motor trip to Seattle and Vancouver. Returning they visited the Knapman family at Bellingham, and Mrs. R. G. Foot at Bellevue.

The remains of Jack Powell, who met death by drowning at the Frank lake on Sunday evening, were laid to rest in the Blairmore cemetery Tuesday afternoon. Powell was son of Engineer and Mrs. T. Powell, of Frank, and was but twenty years of age.

The Alberta game regulations have been amended to read: "The holder of a general game license or bird game license may hunt, shoot at, take or kill Hungarian partridge between 12 o'clock mid-day on the 1st of October up to and including the 15th day of December."

A car driven by Mr. S. McDowell, of the local telephone exchange, collided with a truck, both westbound west of Macleod last evening, doing considerable damage to the car. Mr. McDowell sustained injuries necessitating his removal to the Macleod hospital, where it is understood he will be obliged to remain a few days. Mrs. J. O. Roberts, passenger with McDowell, suffered from a shaking up and arrived back to Blairmore today.

Pat Conner was in from Gladstone Valley this week.

Peter Simenosa, of Lundbreck, was a recent tonsillotomy patient in the Nanton hospital.

Miss Madeleine Chardon returned last week end from a two weeks' business visit to Calgary.

Mr. and Mrs. Harvey Murphy have returned from a honeymoon sojourn to Eastern Canada.

Mr. and Mrs. Harry Clements and daughter Mildred, of Pincher Creek, were Blairmore visitors last evening.

The editor of The Edmonton Bulletin has issued notice of appeal against Judge Ives' fine for contempt of court.

Congratulations are extended to Mr. and Mrs. A. J. Johnson, of Pincher Creek, on the birth of a son on July 21st.

Dr. and Mrs. A. H. Baker, of Calgary, stopped off in Blairmore, returning from a holiday motor trip to the coast.

Two nudists were wed at the Chicago fair by a minister who wore a goat skin. Usually the groom is supposed to be the goat.

Mr. Steiner is said to be organizing a band at Lethbridge. He says the name of the new musical organization will be "immaterial."

M. H. Congdon has returned from Calgary, to which point he had gone for treatment of an eye, the sight of which has been recovered.

F. M. Thompson Co's sale, which started on Saturday last, and is still going strong, has been attended by interested buyers from all over the district. A properly advertised sale cannot but be successful.

The death occurred at Lethbridge on Monday, July 23rd, of William Short, aged 79 years. Deceased came from London, England, 25 years ago. He is survived by a daughter, Mrs. Combs, of Vancouver, B.C., and four sons, Albert and Sidney, of Coleman, William and Walter, of Lethbridge.

ATTENTION CHILDREN—Vacation school opens on Monday morning at 9:30 in auditorium of United church. We welcome all children between ages of 4 and 14, whether members of Sunday school or not. This school is under the leadership of Miss Galbraith, of Lethbridge, and we promise you a real good time.

CARD OF THANKS

To the citizens of The Pass towns, to the men from the Frank west relief camp, and to its own residents, who unselfishly volunteered their assistance in preventing the recent bush fire from destroying the Village of Frank, the Frank Council tenders its sincere thanks.

THE COUNCIL OF FRANK.
